Research Interest

Human-Computer Interaction, Human Centered AI, Computer Vision, 3D Human

Education

Seoul National University Mar 2021 – Present
BS in Computer Science Engineering and Mathematical Sciences Seoul, South Korea
• GPA: 4.0/4.3

Research Experience

Human Computer Interaction Lab, Seoul National University Mar 2024 - Present
Advisor: Prof. Jinwook Seo – Research Assistant Seoul, South Korea

- Developed education tools leveraging computer technology to enhance interactive learning experiences, with a focus on usability and accessibility for both students and teaching assistants.
- Conducted research on high-dimensional data visualization, focusing on evaluating structural complexity for reliable dimensionality reduction and addressing the accurate usage of popular visualization methods.

Lunit Inc. Dec 2023 - Feb 2024
Internship – Advisors: Jaewoong Shin, Dr. Sergio Pereira Seoul, South Korea

- Developed an "Attention Based Cell Detection Enhancer" model utilizing a vision transformer to improve cell detection accuracy by accounting for cell interactions.

Max Planck Computing and Data Facility Sep 2023 - Dec 2023
Internship – Advisors: Dr. Klaus Reuter, Dr. Markus Rampp Garching, Germany
(Fully Funded: airfare, accommodation, and insurance)

- Developed a data analytics model for Leveraging Data Analytics for Improved Performance Monitoring on HPC Systems, to provide HPC users with detailed insights into their resource usage.

Visual Computing Lab, Seoul National University Mar 2023 - Aug 2023
Undergraduate Research Opportunities Program – Advisor: Prof. Hanbyul Joo Seoul, South Korea

- Worked on "Building a Multi-View System for High-Quality Digital Human Reconstruction" by developing a multi-camera setup and processing pipeline to enhance the detail and accuracy of digital human models.

Projects

Question-Answer-and-Connect  Mar 2024 - June 2024

- Developed a web app enabling interactive question-answer sessions with keyword-based navigation, enhancing user engagement through intuitive design. Integrated OpenAI's API for dynamic, intelligent responses.

Ko-Radiology-GPT  Mar 2024 - Jun 2024

- Built a Korean-language GPT model for real-time Q&A on radiology reports, leveraging translated datasets to assist medical professionals in Korean.

MAPSEE – A map-based journal app  Sep 2022 - Aug 2023

- Led front-end development in the Team Happtitude to launch MAPSEE, a map-based journal app, on the App Store, implementing interactive maps and enhancing the user experience.
- Conducted training sessions for junior developers, fostering their skills in front-end development and collaborative project work.

Lecture Review Analysis with LSTM Mar 2022 - Jun 2022

- Conducted an AI project analyzing lecture reviews using LSTM to identify sentiment and recurring feedback themes. This analysis provided insights into student experiences, assisting in targeted course improvements.

Scholarships and Awards

Presidential Science Scholarship • Full Scholarship with an additional 2,500,000 KRW stipend for academic encouragement.	<i>2024 - Present</i>
KC Future Scholarship Foundation • Full Scholarship with an additional 900,000 KRW stipend for academic encouragement.	<i>2024 - Present</i>
Semiconductor Specialized University Scholarship • Awarded 11,000,000 KRW or 6,000,000 KRW in recognition of academic performance in semiconductor studies.	<i>2023 - Present</i>
National Science & Technology Scholarship • Full Scholarship covering tuition for outstanding students in science and technology.	<i>2023 - 2024</i>
Academic Excellence Scholarship , Seoul National University • Received four times in recognition of academic excellence from 2021 to 2022.	<i>2021 - 2022</i>

Additional Information

Northeast Asia Student Round Table (SRT) , Chairman • Led initiatives for collaborative dialogue among Northeast Asian university students, fostering cross-cultural understanding and cooperation.	<i>Sep 2023 - Present</i>
SNU Engineering Honor Society (STEM) , Member • Recognized for academic and leadership excellence, contributing to the STEM community through mentorship and outreach activities.	<i>Mar 2023 - Present</i>
SNU Student Ambassadors (SSA) , Vice President • Organized university events and managed communications to promote Seoul National University to prospective students and the community, especially supporting team coordination and outreach strategies during the COVID-19 pandemic.	<i>Mar 2022 - Dec 2022</i>
Sharing Class for Educational Volunteer Organizations , Volunteer • Taught and mentored underprivileged students, introducing engaging educational methods to make learning enjoyable and accessible.	<i>Jun 2022 - Aug 2022</i>
SNU CLS Student Council , Member • Actively supported student activities and initiatives within the College of Liberal Studies, contributing to event planning and community engagement.	<i>Mar 2021 - Jun 2022</i>

Technical Skills

Programming Languages: Python, Java, C, C++, JavaScript

Machine Learning Frameworks: TensorFlow, PyTorch

Web Development: React Native, React, HTML, CSS

Language Proficiency

TOEFL: 108 (Reading 25, Listening 30, Speaking 26, Writing 27).
